EXPERIENCE

SNAPCHAT OPINION LEADER PROGRAM UNDER 25 |

STUDENT OPERATIONS MANAGER | WEBSITE

May 2023 – February 2024 | Bangalore, India

- Successfully headed and implemented AR missions and strategies, leading to over 20 billion+ views and 20,000+ lenses.
- Effectively managed day-to-day operations of the AR program, achieving a churn rate of 13.33 per cent through proactive problem-solving and initiative implementation.
- Managed program data and evaluation, ensuring efficiency and curating leader boards, demonstrating proficiency in data analysis and program management.
- Developed strategies attracting 3000+ students to the program, demonstrating strategic planning, market research, and trend analysis skills.
- Developed automation systems for document generation using JavaScript, optimizing efficiency and enhancing workflow with automation development by 20+ hours.

PROJECTS

3D PORTFOLIO WEBSITE | WEB DEVELOPMENT PROJECT

Mar 2023 – April 2023 | Project Link

- Developed and designed a 3-dimensional website using React JS, Three JS, HTML/CSS and Firebase
- The website is a collection of my latest and most meaningful projects. Each piece is unique in style and content and represents a distinct moment in my career.

INDIAN SPACE APP | APP DEVELOPMENT PROJECT

September 2023 | Project Link

- StellarIndia has been developed to be lightweight, fast, and easy to use. It is built with the purpose that education comes together with interaction.
- This project has been built using the Flutter framework, which allows to build an app for both iOS as well as Android.

CERTIFICATION

GOOGLE UX DESIGN SPECIALIZATION

Jan 2024 | Bangalore, India | Credentials

- Completed seven courses with hands-on, practice-based assessments, focusing on empathizing with users, defining pain points, and creating design solutions.
- Created projects with effective use of skills in wireframing, prototyping, and testing designs to gather user feedback and iterate effectively.
